April 15, 2019

Mark McGowan, President
Stop & Shop Supermarket Co., LLC
1385 Hancock Street
Quincy, MA 02169

Dear President McGowan:

We write to strongly urge stop and shop to return to the negotiating table. Failing to come to an expeditious fair agreement hurts the company, its employees and its consumers especially as we approach the Easter holiday.

Stop and Shop’s parent company, Ahold Delhaize, has recorded strong profits both last year and in its recent fiscal quarter. These profits are the direct result of the hard work of UFCW employees.

Stop and Shop and the communities it serves benefit from workers who are paid living wages and receive other compensation benefits that allow the workers to care for their families and provide a future for their children while understanding the need for Stop and Shop to thrive in the competitive retail market.

It is our hope that Stop & Shop, through good faith negotiations, becomes a better place to work by reaching a contract agreement that reflects the true value of its workers.

Sincerely,

Rosa L. DeLauro
Member of Congress

Richard Blumenthal
United States Senate

Christopher S. Murphy
United States Senate
